Russell,

I'm confirming the conversation with both you and Ms. Minter. As discussed, the plan is to address the pockets of oil still present in the drainage ditch in her property leading into Cow Creek on Monday. Thanks for the prompt action and support.

Roberto,

This will confirm that yesterday (6/14), you contacted me around 4:00 PM about a call you received from a Ms. Minter Ex. 6 Personal Privacy (PP) who reported that she had a small amount of oil collected on her property from the above referenced spill. At your request, I contacted Garner (John Pavlicek) to have them arrange with Ms. Minter a time to go and mop up the oil.

Without going into detail (as we discussed), Ms. Minter was not very nice or cooperative when John spoke to her. All he could do, as I conveyed to you on a follow-up phone call, was arrange a time to meet her for the cleanup at 9:00 AM, Monday morning, June 19 - which they will do.

If you need anything further please do not hesitate to let me know.

Thanks,

Russell Stewart
